COUNTRY OF ORIGIN
The Netherlands

PRODUCT DESCRIPTION

SOLAR consists of titanium dioxide and natural plant nutrients. **SOLAR** can reduce the harmful effects of UV radiation and improve the absorption of sunlight. This reduces the stress which, in combination with amino acids and silicon, increases the plants natural resistance. This is a unique product because due to the extremely fine structure of **SOLAR**, combined with UV light, organic pollution on the leaves can be reduced.

BATCH NUMBER / SHELF LIFE

Batch code: AA-200901

Limited shelf life after opening

REMARK

WARNING Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist. Keep out of the reach of children and read the MSDS sheets carefully before use. Do not combine **SOLAR** in the spray tank with pesticides or fertilizers unless prior use has shown the combination is physically compatible, effective and non-injurious under local conditions.

WARRANTY

Aqua Aid Europe (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorised to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the materials as to which a claim is made.
